

# GROVEMILL

*sustainable wine*, CHARDONNAY

WAIRAU VALLEY, MARLBOROUGH, NEW ZEALAND

We've been making wine with as much thought for our environment as wine excellence for over 30 years. We're carrying our enduring legacy of sustainability into the future - We're here for good.

## OUR LEGACY OF SUSTAINABILITY

Built-in sustainability. Our bottles are made from light-weight recycled New Zealand glass, our caps are made in New Zealand, our labels are made from highly renewable sugarcane and our wine is bottled with the help of solar energy.

## OUR VINEYARDS

The pristine fruit for our Grove Mill Chardonnay is harvested from some of the oldest vineyards located in the Wairau Valley. Good soil and canopy management, along with cold nights during ripening and a beautiful balmy summer, keep all the concentrated flavours in the grapes which you can taste now in the wine.

## CHARDONNAY 2019

Our Grove Mill Chardonnay 2019 has an intensely fruited nose of ripe stone fruits, citrus and honeydew melon give the wine. Supporting toast and brioche notes from balanced oak use with a moorish acidity pulls the wine through a long finish.

**COMPOSITION:** 100% Chardonnay

**REGION:** Wairau Valley, Marlborough, New Zealand

**ALCOHOL:** 14%

**pH:** 3.23 **TA:** 5.70 **RS:** 2.00
